

# Giosuè Cattelan

## FULL STACK DEVELOPER

### About me

**Software Developer focused on full-stack web applications and system integration.**

I design and develop scalable web solutions using modern JavaScript frameworks, relational databases and cloud/self-hosted environments. My background includes industrial supervision systems and networking fundamentals, allowing me to bridge application development with infrastructure and deployment concerns.

I value clean architecture, problem solving and continuous learning through real-world projects.

 06/02/2001

 Born in Padua, Italy.

### TECHNICAL SKILLS

#### Frontend:

HTML5, CSS3, JavaScript (ES6+), Vue.js 3, Nuxt 4, Tailwind CSS, State management, Responsive Design, UI/UX (Figma), jQuery

#### Backend and DataBase:

Visual Basic .NET, SQL Server, Supabase(PostgreSQL), Node.js

#### Deploy e Hosting:

IIS, Netlify, NuxtHub, Firebase

#### DevOps:

Hyper-V, VirtualBox, VMware, Nginx, Docker (Cloud, Media, VPN, Servarr, Reverse Proxy, local DNS), Subnetting

#### Tools:

Git, Jira, Visual Studio/VS Code, Arduino, Raspberry Pi

### SOFT SKILLS

Problem Solving e Debugging  
Autonomous project management  
Teamwork in a structured enviroment  
Rapid and continuous learning  
Organization and Priority management

### LANGUAGES & OTHERS

English : Cambridge B2 - Actual C1

Italian : Native speaker

Hobby : [www.ethoswebstudio.it](http://www.ethoswebstudio.it)

5 years pizza chef assistant

7 years competitive athlete "Fiamme Oro"

### PROFESSIONAL EXPERIENCES

#### Software Developer at Criotherm Zeta Plus S.R.L

2025 - 2026

 [remoteGATE](#): Remote control web portal development and supervision for electro-hydraulic systems related to HVAC.

Nuxt 3 (NuxtUI, Tailwind) as Frontend, Middleware (Pinia) and APIs;  
Deployed on a Linux VPS (Hetzner) through Docker;  
PostgreSQL as Database  
Nginx and Traefik as reverse proxies and load balancers.

High-level supervisor programming:

Carel, Modbus, RS485, SCADA, OPC UA, PLC, HMI,  
Atvise 3, Eliwell Free Studio, DeviceCreatorSS.

#### Full-Stack Developer at Berenice S.R.L

2022 - 2024

 [GEOtransit](#): Exceptional transport portal implementation, bug-fixing, management, and support.

WEB implementation and management:

Visual Basic, ASP.Net, HTML, JavaScript, JQuery, CSS, Git.

Database management:

SSMS, SQL Server, IIS, Azure hosting.

Customer relations:

Decision-making meetings (clients), Help desk (Jira).

#### Front-End Jr Developer at Coincydence S.R.L

2022

Website Creation and Management:

Vue 2, Nuxt 2, TailwindCSS, Sass, Bootstrap, Git.

Database integration:

Rest APIs, Ajax, Token authentication.

Testing:

Pre and post-deployment testing of applications and web portals.

### EDUCATION

#### ITIS F.Severi - ITI G.Ferraris

2016 - 2021

Baccalaureate degree in Computer Technical Institute | 2021

Web Design course (HENRY & CO. SRL) | 2020

Robotics course (Robocup Junior) | 2020
